 PRIMARY EXAMINER

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Samuel W. Ntiros (Reg. No. 39,318) on 4/27/2005.

The following changes have been made to the subject application:

**Claim 17:**

Line 10, "ration" has been changed to --ratio--.

**Claim 26:**

Line 1, "method of claim 25" has been changed to --frequency generator of claim 17--.

**Claim 27:**

Line 1, "method of claim 25" has been changed to --frequency generator of claim 17--.

The Examiner's amendment has been made in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the amendment filed 4/18/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest adjusting at least one of a swallow counter and a program counter in the frequency divider to a value which shifts the spurious signal of said predetermined order outside the loop bandwidth of the PLL as called for in claim 1, the frequency divider includes a swallow counter and a program counter and wherein values for the swallow and the program counters are

controlled based on modulation ratio of a Sigma-Delta modulator as called for in claims 17, 33 and 49. Therefore, claims 1-4, 6, 8-14, 17-20, 26-30, 33-36, 40-51, 53-54 and 56 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
